

Platform Sub-processors

In providing our platform and services, we and our group companies may use sub-processors to provide specific functions and services such as hosting or customer service. We've set out details of who these sub-processors are and the role they play below. Not all of them will be relevant to the way that you access our platform or to the services that you receive from us. If you have any questions, please contact our privacy team at privacy@immersivelabs.com.

If you would like to subscribe to updates to our sub-processor list, please follow this [link](#).

Platform Infrastructure Sub-processors

Immersive Labs is a fully cloud-based platform hosted in AWS data centres. Data for companies located in North and South America will be hosted in our US data centre by default and for companies located anywhere else in the world, data will be hosted in Europe by default. Enterprise Customers can request to have their data isolated in one of these locations.

<i>Sub-processor Name</i>	<i>Purpose for Processing</i>	<i>Data Hosting Location</i>
Amazon Web Services, Inc	Cloud infrastructure hosting	Main centre: Ireland eu-west-1 Back-up centre: London eu-west-2
